

WASTE COLLECTING BODY 1.7 m³ + COMBI PRESSURE WASHER

WA5

EASY CLEANING IN VARIOUS ENVIRONMENTS

The ALKE[®] ATX waste collection vehicle with pressure washer is suitable for the cleaning of urban areas, because with just one vehicle can be carried out different tasks: in the waste collection

body can take place the garbage collected, while using the pressure cleaner it can be arranged the cleaning of roads, walls and other surfaces. The 20 meters long hose with nozzle allows to clean also places difficult to reach and can be easily rolled thanks to the reel.

compatible models		ATX 340E ATX 340EH
N1 road homologation		•
length	ATX 340E [mm]	4.070
	ATX 340EH [mm]	4.070
height (vehicle height with beacon light and standard tyres)	[mm]	1.980
width of vehicle (with wing mirrors closed)	[mm]	1.380
width of vehicle (with wing mirrors opened)	[mm]	1.650

loading capacity of vehicle

is given by the load capacity (chassis) of the model on which is mounted the module less the weight of the module itself and optionals/accessories

note: the module's load volume does not change if the bin lift system is installed

- standard Δ optional
- ! compatible but not type-approved for road circulation
- not available ⁽¹⁾ with bin lift system

WASTE COLLECTING BODY 1.7 m³

module's weight	[kg]	270
module's loading capacity	[kg]	650
module's load volume	[m ³]	1,7
bin lift system operation waste collection body's electrohydraulic control unit and bin lifting system are powered directly from the drive batteries		90° electrohydraulic
dumping height	[mm]	1.450
side door height	[mm]	1.300 ~ 1.350
bin lift system operation the bin lift system (Δ) is equipped with a mechanism that allows to keep the container in vertical position and empty it when the bin has reached the loading mouth		electrohydraulic
range of uses	[L]	120 - 240 - 360 liters bins
bin lift system		Δ (90 kg)
tarp system for waste collecting body		Δ
rotating beacon light on waste collecting body		•

WASTE COLLECTING BODY 1.7 m³ + COMBI PRESSURE WASHER

COMBI PRESSURE WASHER

module's lenght	[mm]	450
module's weight	[kg]	100
high pressure washer's tank capacity (independent detergent suction system)	[L]	210
high pressure pump	[L/min]	8
pressure	[bar]	150
grade spray gun with high/low pressure switch		•
high pressure tube with hose reel		•
high pressure tube's length	[m]	20

NOTE

This module is powered by the battery of the vehicle therefore can affect the autonomy of the vehicle itself. For all the other data refer to the technical specs of the model on which is fitted the module. The technical specifications, design and performance of the products listed in this technical sheet are indicative and may undergo modifications without forewarning.
